

## ULTRA MAX UNIVERSAL SOLVENT COATING

#16-4390 for high viscosity paints

#16-4391 for low viscosity paints

UltraMax has a unique sprayhead which gives the finest aerosol mist on the market. Now you can have the atomization of a spray gun with the convenience of an aerosol can. This specialized blend of solvents and propellant gives a professional result every time, allowing you to save time and money. When filled by using the Z-2501-1 NoClean machines, there is no clean up involved because the cap functions as the paint reservoir.

### Suggested Uses:

Aerosolize custom matched colors  
Fast spot repair of damaged areas

### Benefits:

No spray gun to clean up  
Easy to blend in  
Excellent coverage  
Saves time

### Packaging:

UPC Code	043281009089 (16-4390)
	043281009096 (16-4391)
Cans per case	12
Shipping weight per case	13.6 lbs.
Container	16 fluid ounce can
Label weight	8 ounces
Shipping Classification	Consumer Commodity ORM-D, UN 1950
Hazard Class	2.1

### Properties:

Flammability	Extremely Flammable
Flash point	-19C
Specific Gravity	0.69
MIR value	0.74
HAPs content	0%
Storage Temperature	40-100F
Application Temperature	50-90F
Shelf life (unfilled):	Guaranteed for 2 years

**Filled cans should be used as soon as possible.**

### Additional Information:

While Seymour of Sycamore tests paints from many different manufacturers, compatibility with the UltraMax aerosols can not be guaranteed. Additional label information and/or warnings may also be required. Filling aerosol cans is a manufacturing process, and the manufacturer is ultimately responsible for complying with hazardous labeling standards.
